

JOB POSTING

JA Tech Inc. is a provider of construction & field technical services for most equipment & apparatus which form a part of an electrical power system. Services vary in scope from emergency troubleshooting to installation, maintenance & acceptance testing, commissioning, start-up, system studies & analysis, repairs & turn-key type solutions. We are an equal opportunity employer that is committed to strengthening our company through inclusion & diversity.

We are committed to recruiting & retaining a talented term Instrumentation Journeyperson or 4th year apprentices.

Duties & Responsibilities

- Commissioning & start-up
- Use pneumatic, electrical & electronic testing devices to inspect & test instrument & system operation, & diagnose faults
- Calibrate & maintain components & instruments according to manufacturers' specifications
- Consult manufacturers' manuals to determine test & maintenance procedures
- Repair, maintain & adjust system components or remove & replace defective parts
- Conduct work in a manner prescribed by JA Tech's Occupational Health, Safety & Environmental Manual
- Comply with Electrical Code, safety standards, & other applicable legislation
- Perform other duties as required

Skills & Qualifications

- Red Seal: Instrumentation
- Strong interpersonal, communication, & problem-solving skills
- Strong knowledge of drawings (wiring, schematic, & layout)
- High voltage terminations and/or Fiber experience is considered an asset
- Site experience
- Demonstrated ability to meet deadlines without supervision
- Self motivates with a pro-active attitude & ability to pitch in & do what is required
- Valid Class 5 driver's license
- Willingness to travel regularly to job sites
- Proficiency in the Windows environment & Microsoft Office
- Must be legally entitled to work in Canada

How to Apply

Please submit your resume in strict confidence to: careers@jatechpowersystems.com

We thank all applicants; however, only those selected for an interview will be contacted.
